Homecoming week is one of the most exciting events that occurs during the year at Oceana High School. Homecoming along with all of its festivities, has long been a tradition at Oceana High School. The float competition, class competition, the Homecoming parade, the glamour of the Homecoming queen and her court, jean and jersey day, Freshman dress-up day, the big pep meeting before the game, and many other small, but equally important traditions, are all a part of what has always made Homecoming so unforgettable.

**today's... and future expectations
become realities—graduation, a job,
college, a home—you assume new re-
sponsibilities.**

Just as we do. Because when
customers need electric service, we are
obligated to provide it.

And we always knew that you
and your classmates might one day be
our customers. That's why we started
planning for today ten years ago, so that
we could provide electricity for the life-
style you choose.

We hope we can supply elec-
tricity for all your tomorrows, too.

SENIORS of '81

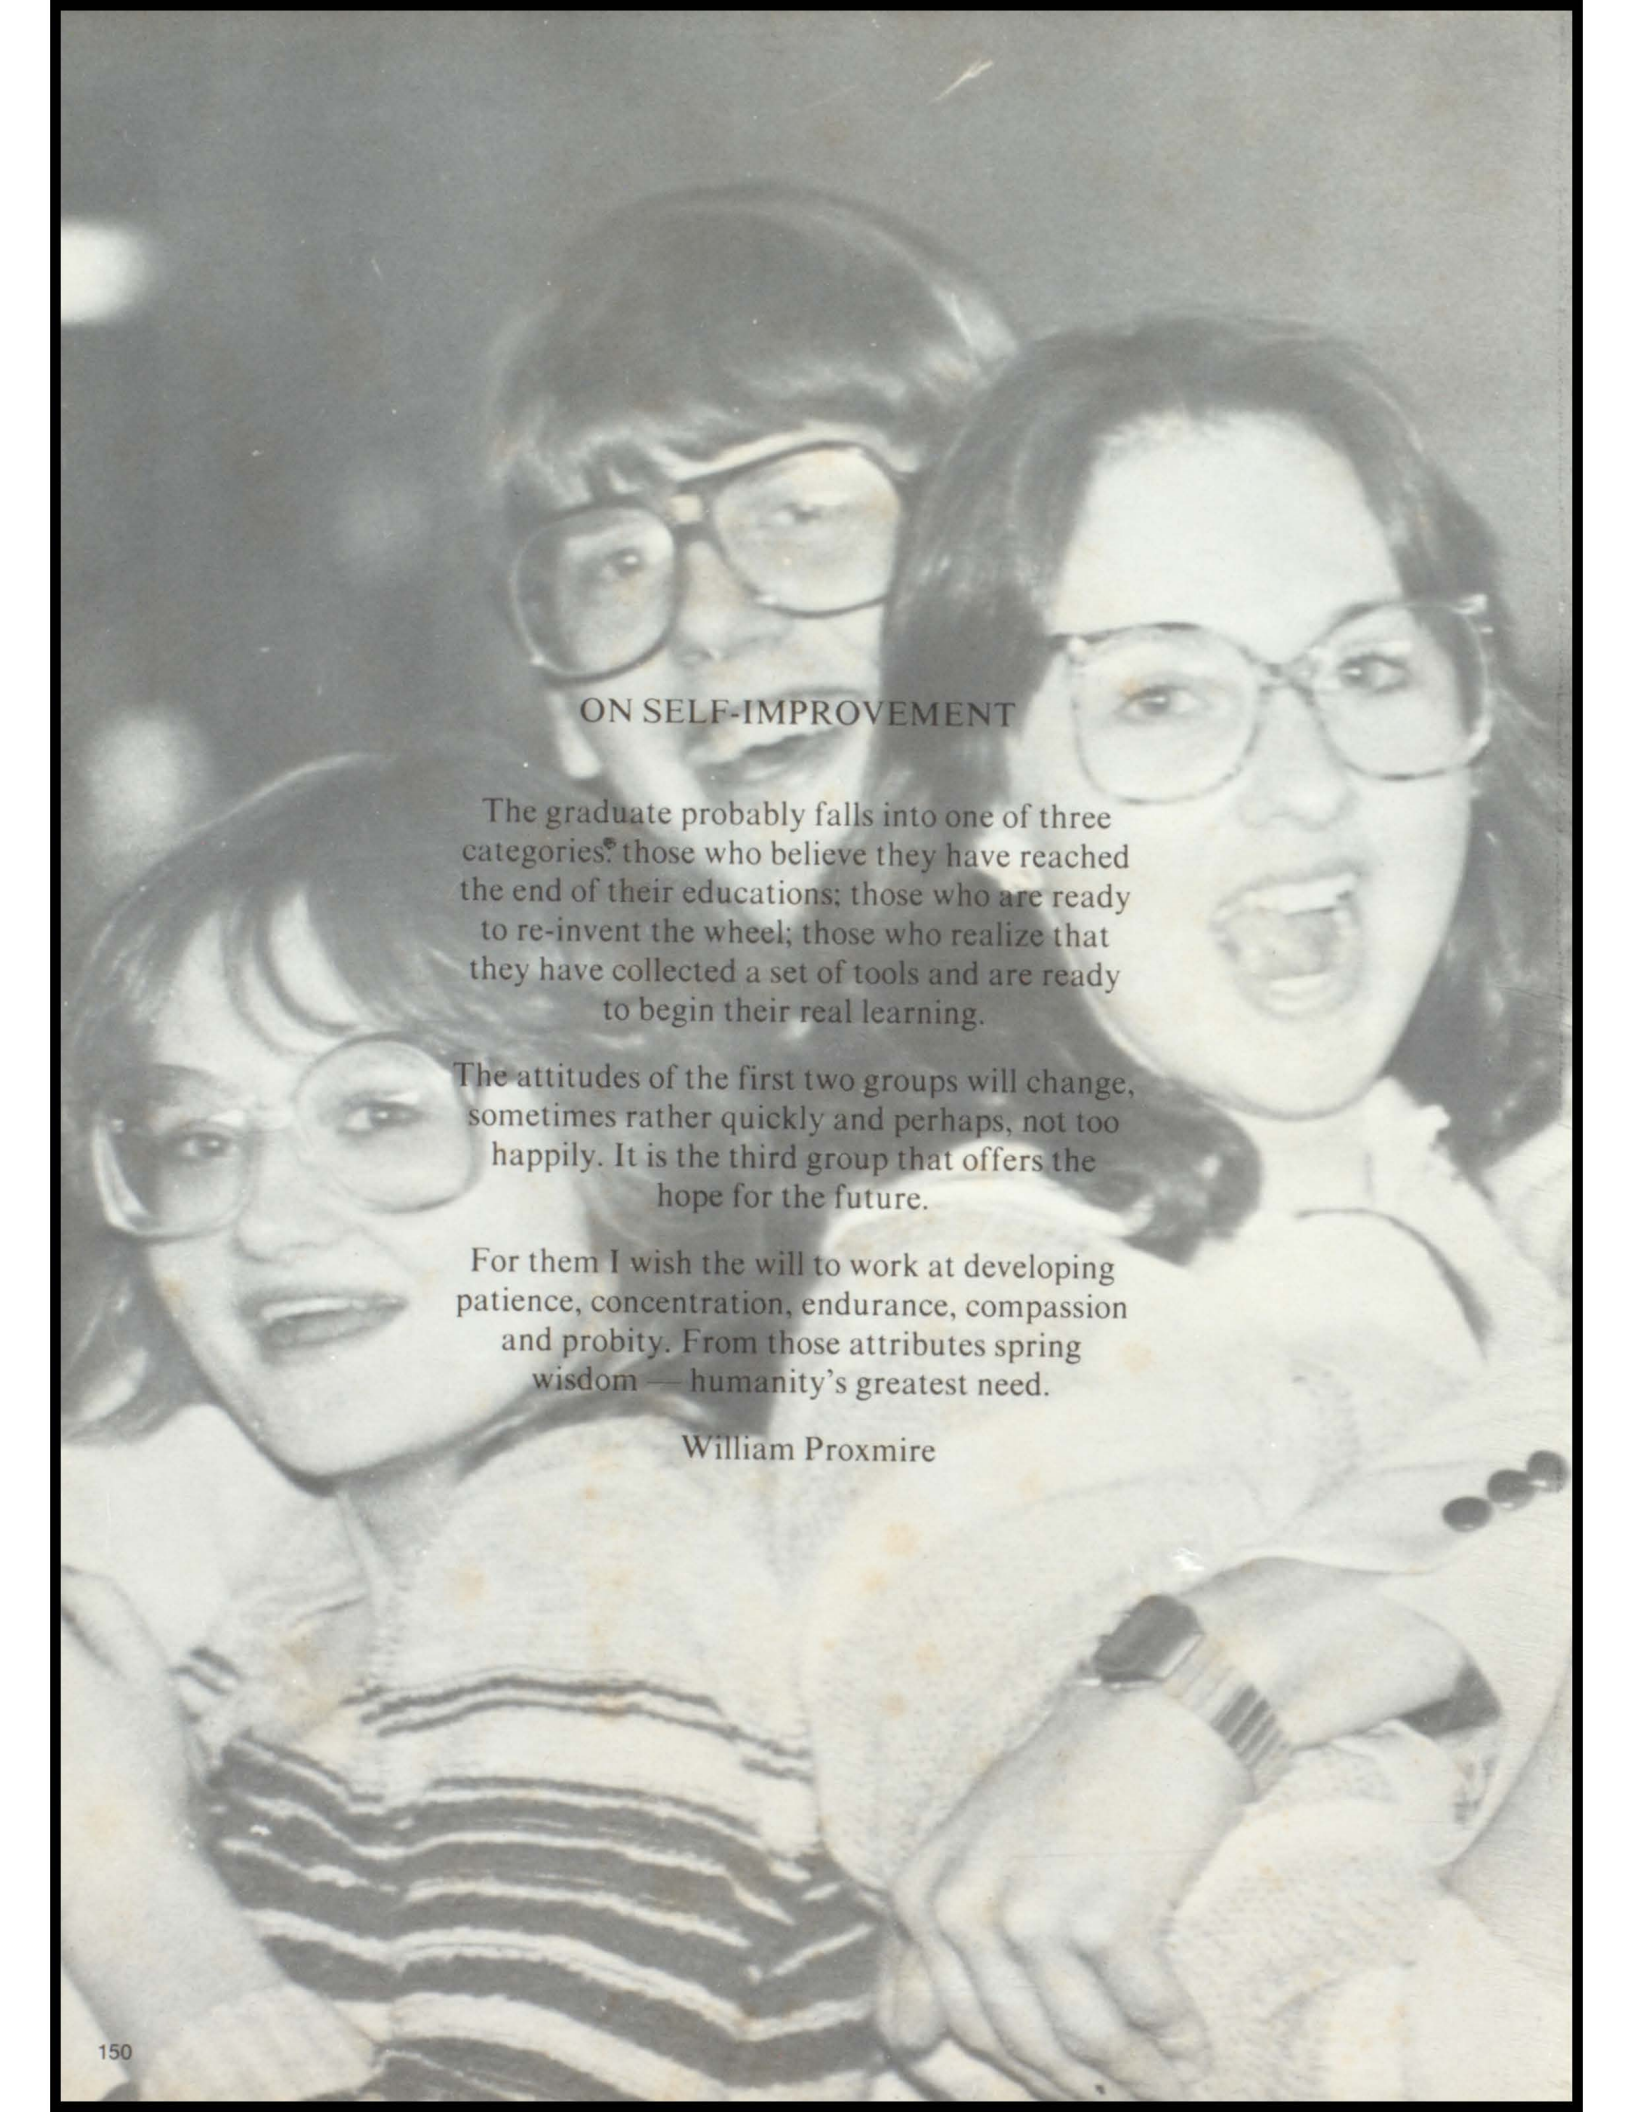

As our last year comes to a close
May we say to all of those
The ones who follow so close behind
Someday soon it will come to your mind
What this year will mean to you
And just what next year you plan to do.

May we suggest what with all our love
That you never forget the Great one above.
You should take your life more seriously
For our life is short and little time to see
All the beauties of life we have to hold
And all the glories we could unfold.
We all have dreams yet to come true.
Still we shouldn't forget the joys we have been
through.

We feel that our last twelve years
Have been filled with praise, laughter and tears.
Overall we feel it was great
As we now approach our big date.

On May thirty-first with tearfilled eyes
We'll receive our diploma and for most good-byes.
When we leave Oceana High,
We'll take with us the greatest of pride.
To all our friends and faculty we'll make you proud
Just wait and see.

ON SELF-IMPROVEMENT

The graduate probably falls into one of three categories: those who believe they have reached the end of their educations; those who are ready to re-invent the wheel; those who realize that they have collected a set of tools and are ready to begin their real learning.

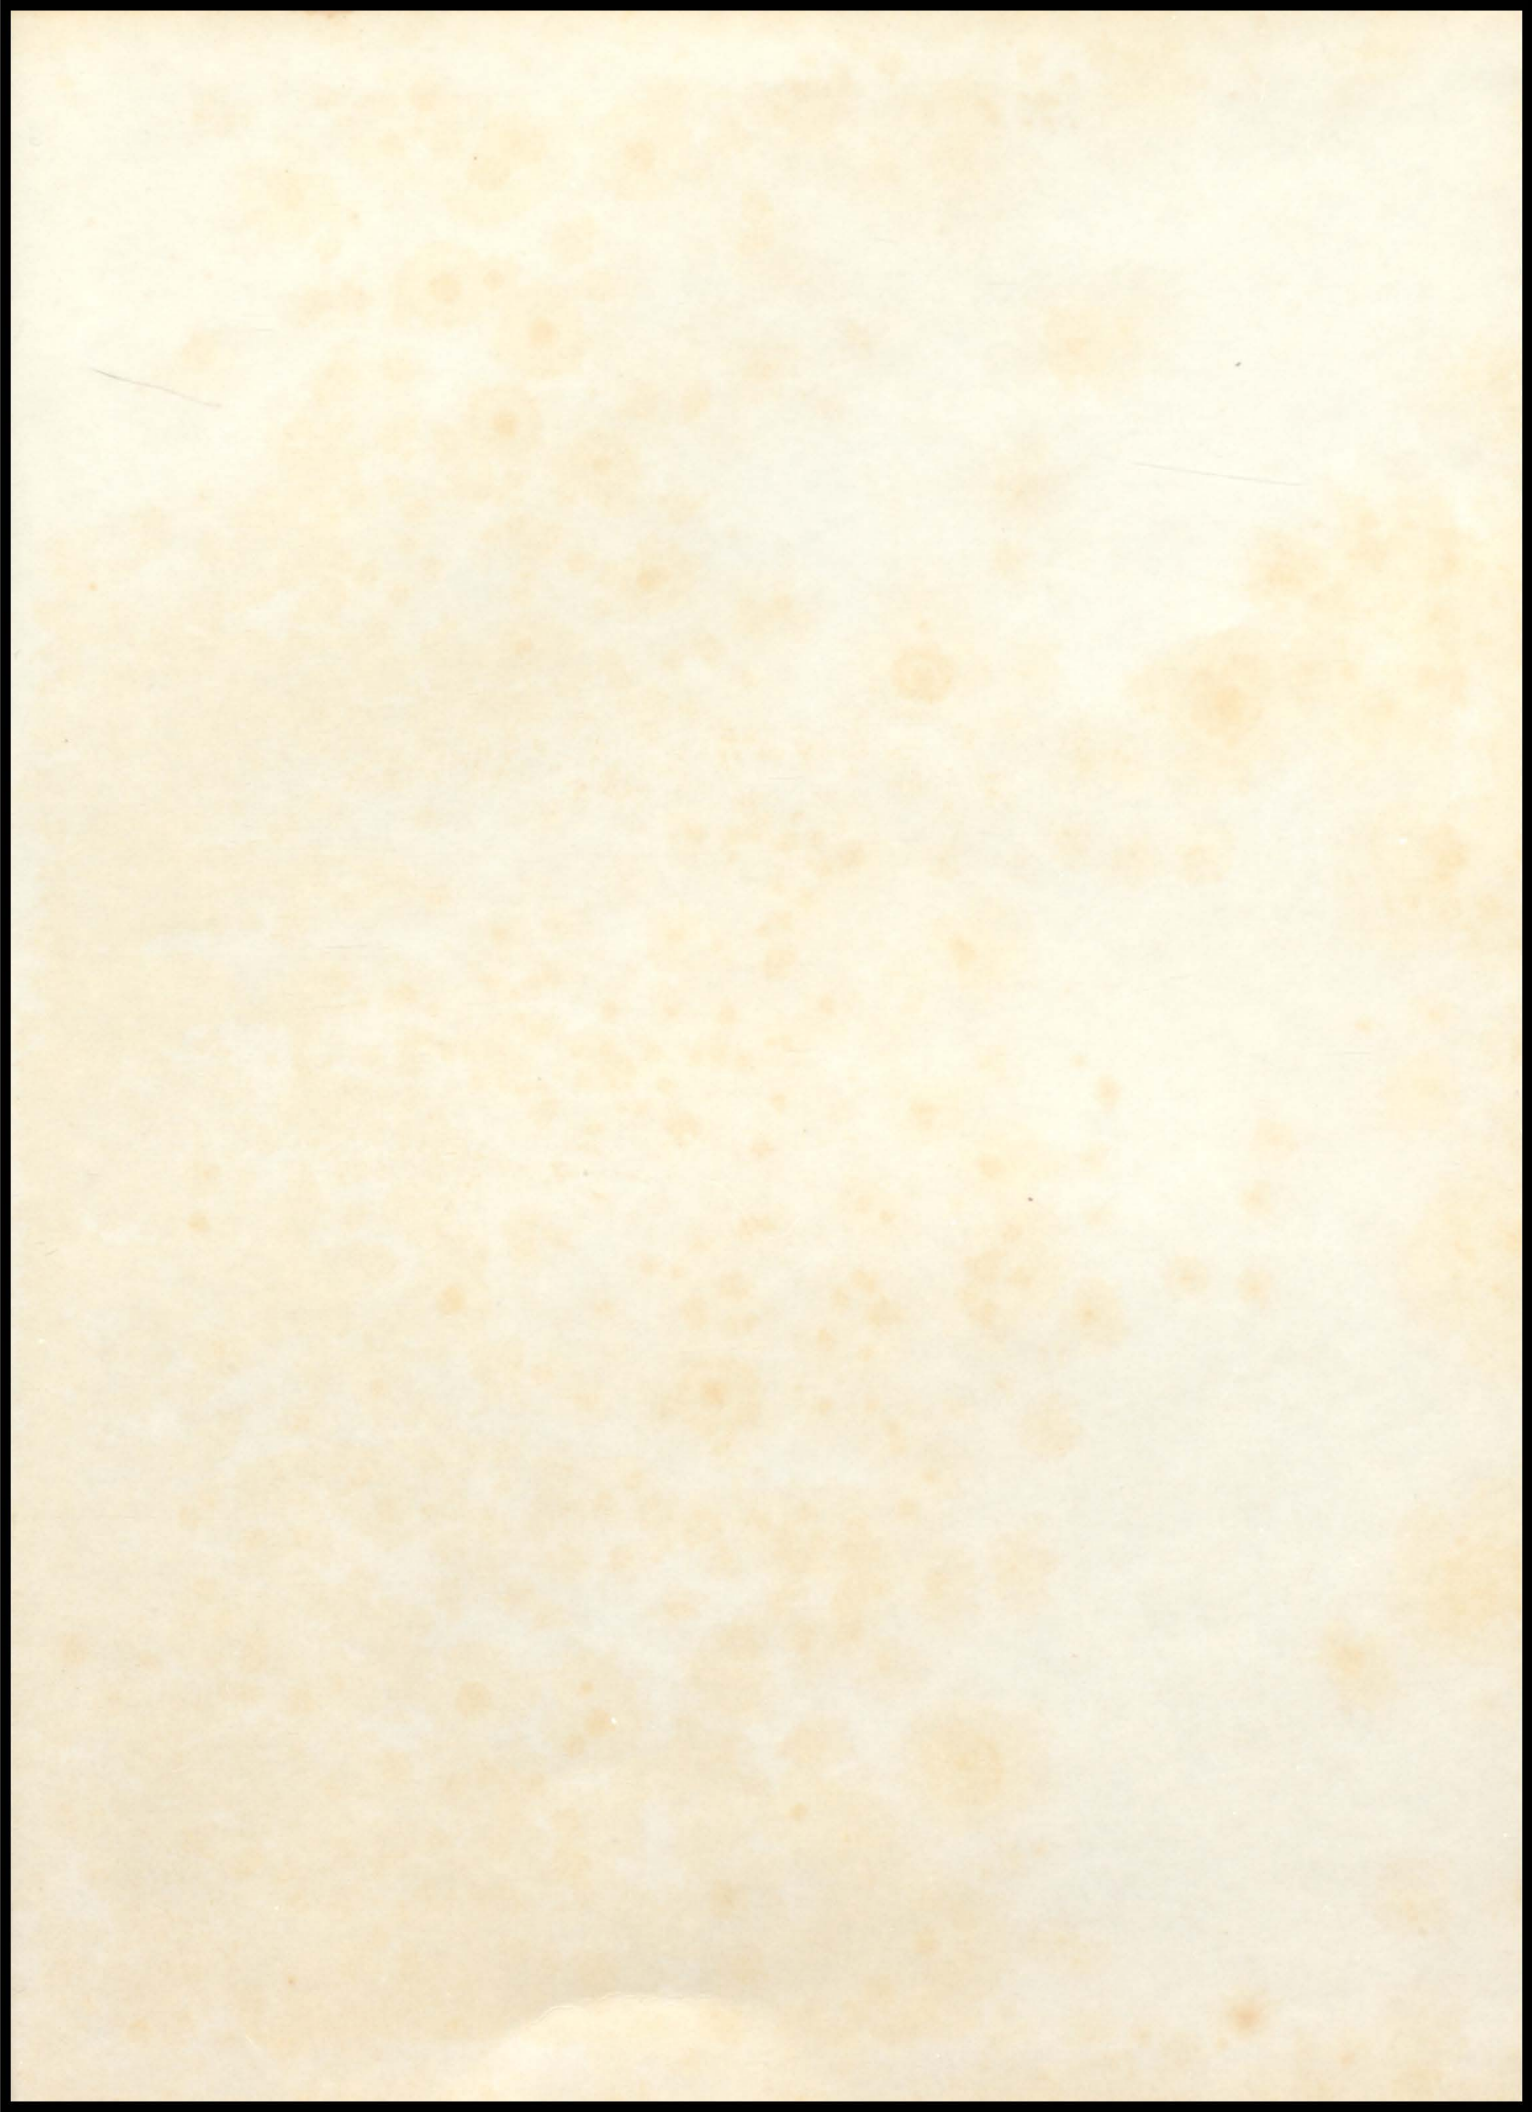

The attitudes of the first two groups will change, sometimes rather quickly and perhaps, not too happily. It is the third group that offers the hope for the future.

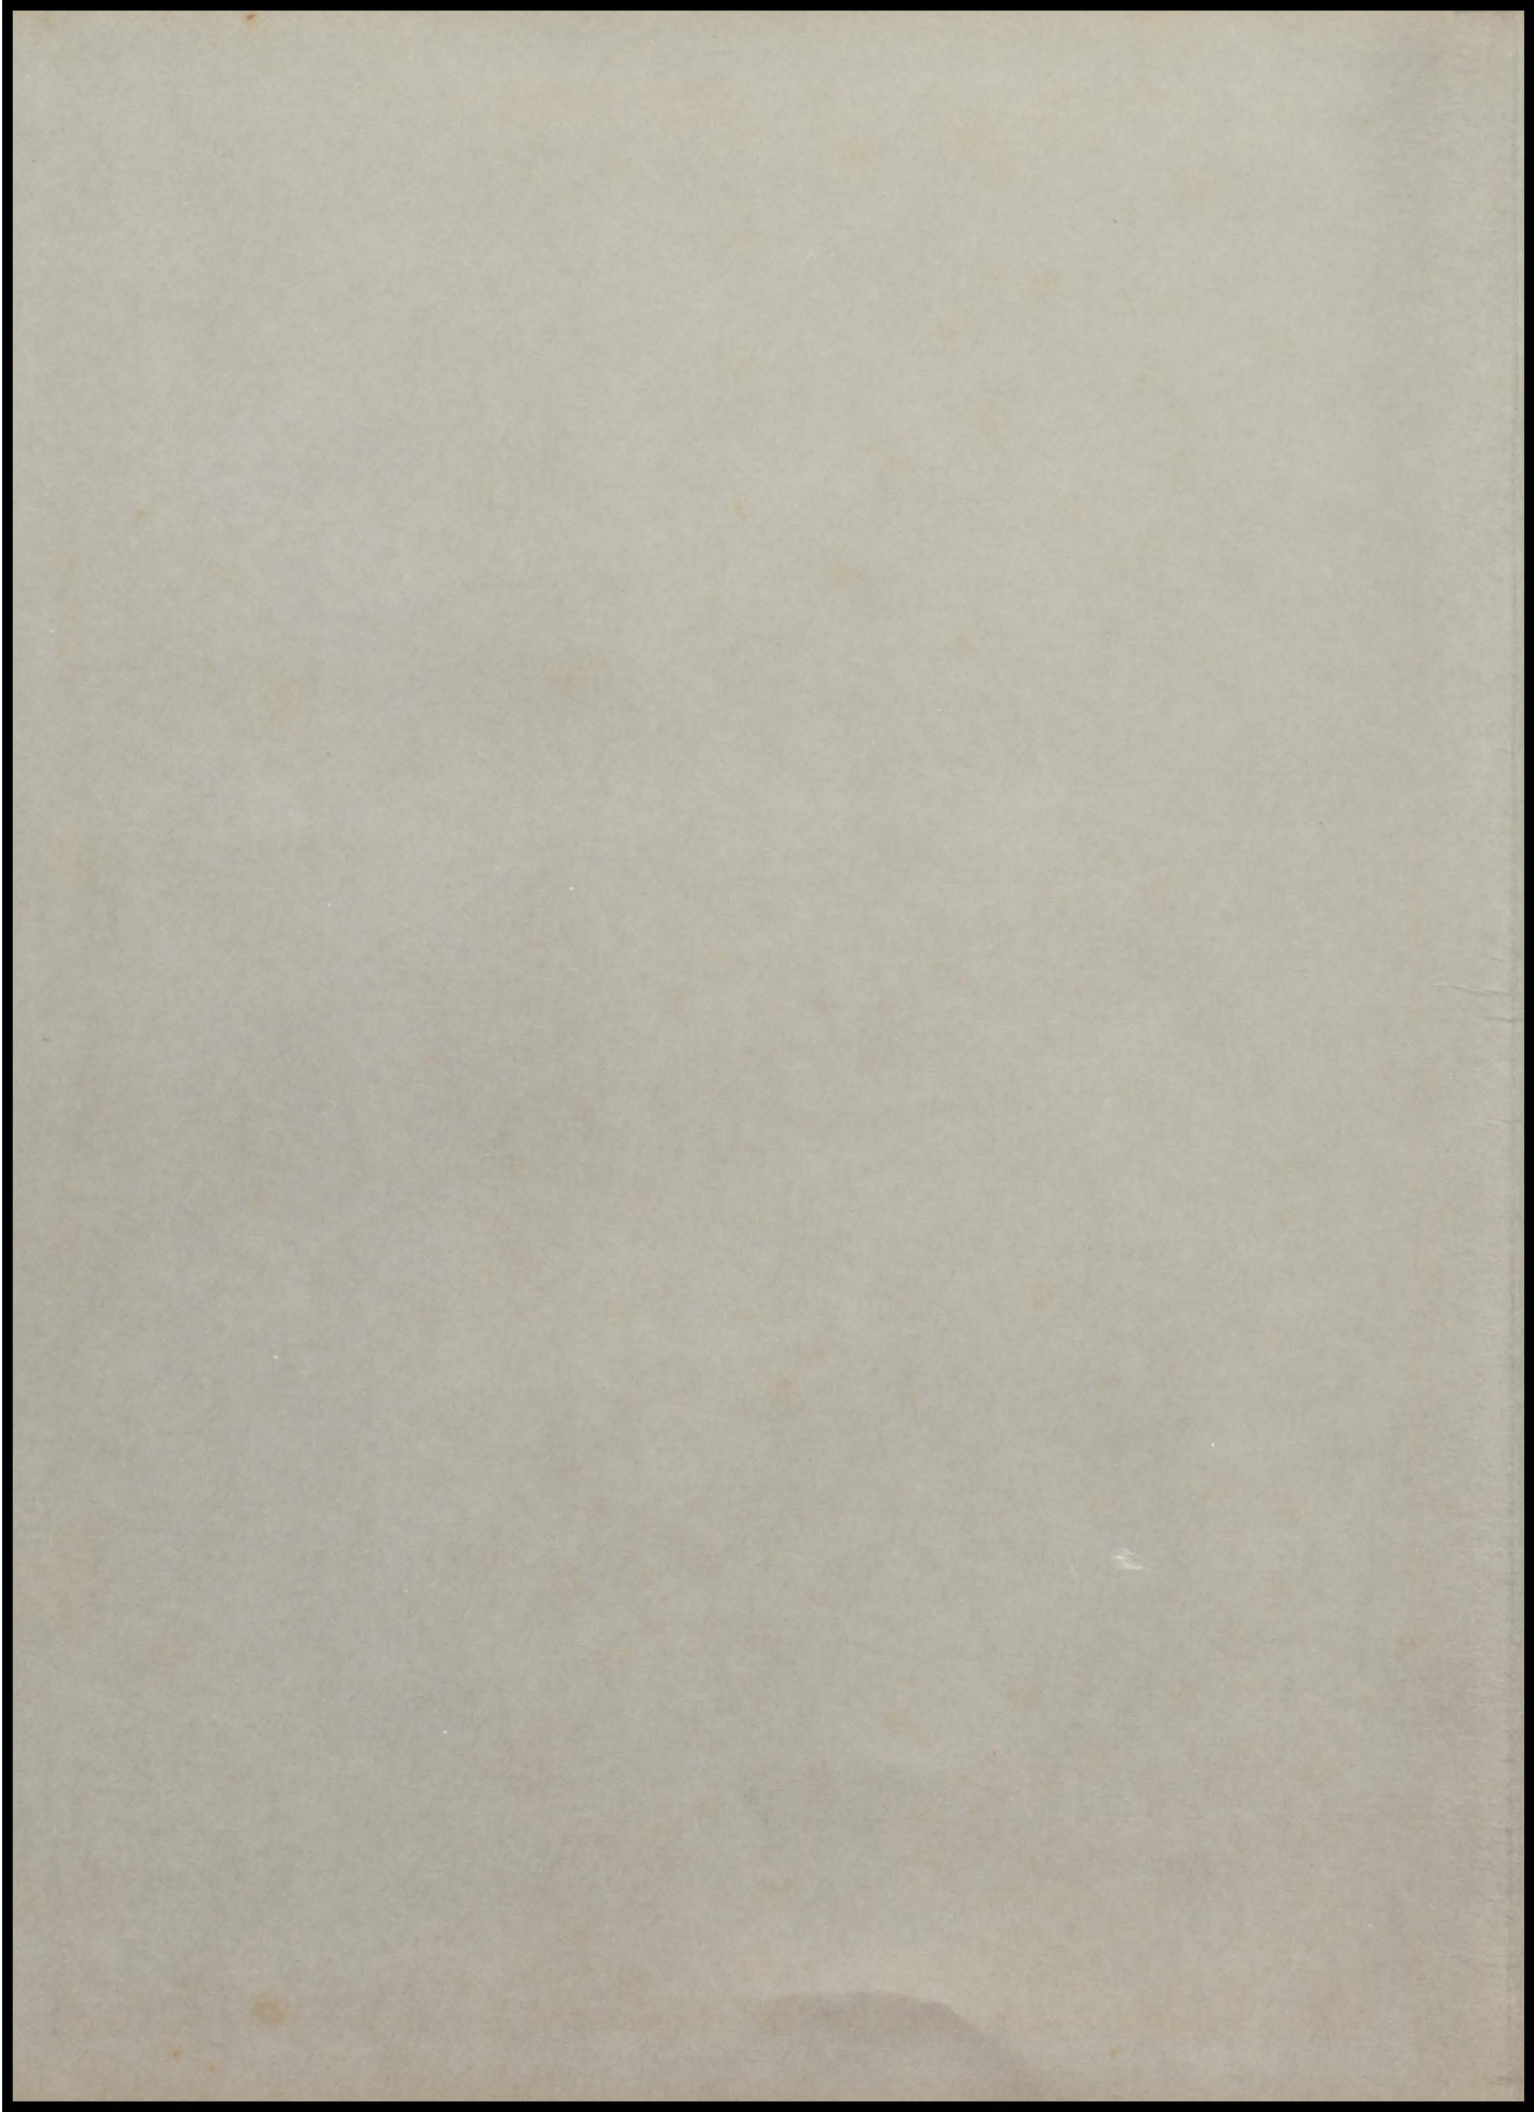

For them I wish the will to work at developing patience, concentration, endurance, compassion and probity. From those attributes spring wisdom — humanity's greatest need.
